

**Game Description:** Mortal Kombat Fighting game with cats.

Simple set up, turn based combat game with unique fighters with their own name, health, and special attack. Very basic web interface

**AI Program:** ChatGPT

### **AI Prompts:**

ChatGPT helped with the following things:

- Designing the base structure for a Mortal Kombat like fighting game
- Generating responsive HTML/CSS for displaying fighter stats and health bars
- Ensuring assignment requirements were met (e.g., destructuring, routes, etc.)

### **Game Screenshots:**
